

# Your STREAMLINED SOLUTION for MEDICAID VALUE-BASED Purchasing Agreements

## Pharmacy Platforms, Powered by Lyfegen

High-cost specialty drugs and therapies are straining Medicaid budgets, prompting states to explore, negotiate, and administer value-based payment arrangements (VBPAs) and implement strategies that balance access with payments tied to actual outcomes. Such complex initiatives require sharing of highly sensitive data with hard-to-find subject matter expertise and purpose-built analytics.

CMA and Lyfegen have aligned their complementary experience, expertise and knowledge to deliver a solution that streamlines the complexity of VBP arrangements. Our solution brings together proven assets, capacity, and unrivaled expertise of industry recognized leaders to accelerate the process of evaluating, negotiating, and administering complex, value-based arrangements with the manufacturers of high-cost drugs and therapies.

## ROBUST DATA AGGREGATION, GOVERNANCE, AND ANALYTIC FABRIC USED BY MEDICAID PROGRAMS, LEADING NATIONAL CONSULTING FIRMS, AND INDUSTRY SOLUTION VENDORS

Mosaic Insights— CMA's data fabric, coupled with Lyfegen's VBP accelerators, integrates and automates the process of securely aggregating, sharing, and analyzing data to support the evaluation, simulation, negotiation, and execution of nuanced, performance-based contracts.

Based on lessons learned, VBPAs are reliant on the ability to process a vast amount of data from a variety of sources. Jointly adopted by payers and manufacturers, the agnostic design of Mosaic Insights mitigates the challenges associated with harvesting and orchestrating data sourced from disparate technological foundations of legacy silos and enables secure data access by Lyfegen's authorized analysts and automated workflows.

CMA's data fabric has been certified to address over 400 System Security Controls, enabling Medicaid officials, researchers, and best-of-breed solution vendors— such as Lyfegen, to work with the trusted data they need, when they need it.

## PATENT-PENDING ANALYTICS PLATFORM PRESENTLY MONITORING CONTRACT PERFORMANCE FOR MORE THAN 4,100 VALUE-BASED PHARMACEUTICAL ARRANGEMENTS

As partners, CMA and Lyfegen proudly support the essential requirements of Medicaid programs on an accelerated path to dynamic, data-driven payment arrangements, including the need for:

- Subject matter expertise and credibility coupled with the world's largest library of existing VBPA models assists states with the identification, simulation, and negotiation of viable VBPAs with leading pharma companies.
- Transparent and trusted data aggregation, governance, and orchestration using highly scalable, secure, cloud-based architecture that aligns federal and state standards.
- Flexible, analytic visualization and reporting tools that align unique features of individual VBPAs.
- Highly secure portals that enable authorized stakeholders to access data, analytics, and agentic AI tools in a timely, self-service manner.

Our proven data-driven approach enables Medicaid programs to negotiate and administer innovative arrangements that align payments with actual outcomes— promoting member access to potentially life-saving drugs and treatments.
